

EH&S POLICY

We will be an industry leader in environmental, health, and safety performance and are committed to the following basic principles in managing our businesses worldwide:

- Compliance with all applicable environmental, health, and safety laws and regulations.
- Commitment to meeting all other environmental, health and safety requirements relative to the organization.
- Continual improvement in health, safety, and security performance with the goal of zero injuries and illnesses.
- Prevention of pollution and the continual reduction of the environmental impact of our operations to protect the environment.
- Design and operation of our plants and facilities in a manner that protects the environment and the health, safety, and security of our employees, contractors, and the public.
- Development and production of products that can be manufactured, distributed, used, and recycled or disposed of in a safe, secure, and sustainable manner.
- Existing and new EH&S risks are understood and managed through our Risk Management Processes.
- Transparent discussion of our environmental, health, and safety practices and performance.
- Providing the framework and establishing direction for setting and reviewing EH&S objectives beginning at a management level and to include all levels of the organization.
